5. If you have a PayPal account and would like to pay using that method: login, select the proper payment method, review your order and click “Pay Now.” If you do not have a PayPal account, select the “Don’t have a PayPal account?” dropdown and enter all necessary personal and credit card information in order to make the payment. Click “Review and Continue” and make your payment.
6. Print and/or document the payment for your records. A conformation email will be sent, keep that as well for your records.
